

## Advanced Open Water

Do you want to take your dive experience to the next level? Are you ready to dive deeper, see more, and learn to really "Think like a Diver"? Well then, our Advanced Open Water course is the right fit for you!

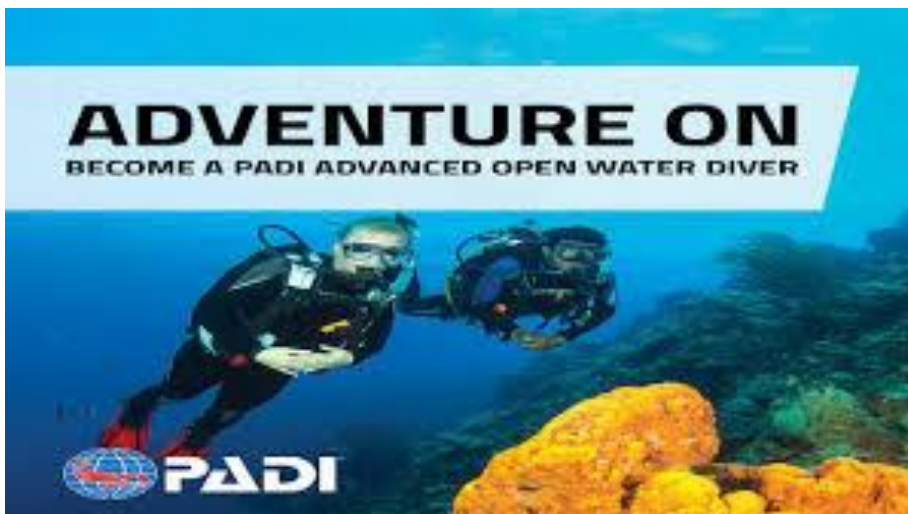

### What does it cost?

**\$449** includes **TWO** classroom sessions, and **FIVE** open water dives! Additional fees of **\$180** for the **online e-learning** program, and a separate **boat fee** applies (**\$150-\$250 depending on location**).

During the **Advanced Open Water Diver** course, the focus is on honing your practical scuba skills and adding new environments and dive skills to your Scuba toolbelt. Of the five training dives you complete with us, the **Deep Adventure Dive** and **Underwater Navigation Adventure Dive** are both Agency required courses. At **Scuba Network**, we also require the **Night/Limited Visibility Dive, Search and Recovery Dive** and **Wreck Dive**- because for Northeast Divers, these skills are a must!

### Why take the course?

You'll further develop your dive skills and build confidence as you gain more experience diving while under the supervision of an instructor. It's also an opportunity to try a sampling of different core specialties to see what interests you the most, and there's something for everyone – from kids to conservationists! Dive deep, see a wreck, find a lost item, and navigate the underwater world! This course starts you on the next step of your SCUBA journey!
